Instructor Corner

Don't Tell Us Connector Cleaning Does not Matter!

A high-performance fiber optic network requires low attenuation and low reflectance values to obtain the necessary bit error rate level. Unfortunately, all it takes is one contaminated or damaged connector to slow down or disrupt a transmission system.

Did you know....

You can use your smartphone as part of your fiber optic testing solution?

Many companies and equipment manufacturers are integrating their test platforms with cloud solutions. The latest generations of test equipment interface with an app on your mobile device as well as view and store test results and create projects in a cloud based system.

See Light Brigade at Upcoming Expos

[International Municipal Signal Association \(IMSA\) Forum & Expo](#) in Atlanta

- Exhibition: Booth 707 on August 28-30
- Training classes:
 - [Fiber Optics for ITS, Traffic, Fire Alarm, and Communication Systems](#)
 - Technician Level I – August 25-26
 - Design Technician Level II – August 28
 - Field Technician Level II – August 29-30
- Certifications available
 - IMSA Fiber Optics for ITS, Traffic, Fire Alarm and Communication Systems

[ISE Expo \(formerly OSP\)](#) in San Antonio

- Exhibition: Booth 142 on September 21-22
- Short courses:
 - [FTTx Outside Plant Design](#) – September 20, 9:00 – 12:00
 - [Testing and Troubleshooting FTTx Networks](#) – September 20, 1:00 – 5:00
