Reduce Expensive Truck Rolls

Your organization's bottom line is impacted every time skilled technicians are dispatched into the field. Truck rolls for new installations or service upgrades generate revenue, but truck rolls to correct avoidable issues are lost revenue opportunities.

Industry analysts estimate the average cost of a truck roll to be between \$150 to \$600 depending on variables like travel distance, road and weather conditions, labor regulations and administrative costs. The Technology Service Association reports that the realistic, fully-burdened... [Read More](#)

Fiber Optics 1-2-3 Remote Classroom

Instructor Spotlight

Phil Shoemaker

Phil has been a member of the Light Brigades training staff since 2000. His work in fiber optic technology includes the design, installation, and maintenance of fiber optic... [Read More](#)

What Our Graduates are Saying...

"Phil did a great job reading the audience and adjusting course materials and presentation to suit the class" ~ *Matt - Principle Engineer*

"Many thanks! **Cameron** is an awesome teacher. Thank you for working with me." ~ *Aaron - Electrician*

"This is my second Light Brigade course with **Mark**. He takes the time to personally connect with the student. He is very easy to understand and very informative in all aspects of the training." ~ *Nicholas - Fiber Optic Installer*

"I have been to a good number of training classes, and this was the best. Well organized and taught by an expert." ~ *Ian - Electronics Technician*
