Instructor Corner

Fiber Cable to the North Pole

Well, not exactly to the North Pole, but close! 947 miles from the pole, to be precise. In the summer of 1991, as a project manager for a 30-mile cable install at Thule placing Submarine...

Did you know...

The first successful automatically switched rotary dial phone network was installed in La Porte, Indiana in 1892?

The inventor, Almon Brown Strowger was motivated because his undertaking business was losing clients to a competitor whose telephone operator wife was redirecting all calls for Strowger to her husband's business. He formed the Strowger Automatic Telephone Exchange Company and installed and opened the first...
