

V3 NE Fiber Blowing Machine

FOR CABLE 4 - 40mm / DUCT 10 - 63mm

The Jetting V3 NE Fiber Blowing Machine is a robust and powerful, pneumatic-operated fiber blower designed for single cables and for relining of multiple microducts. Configurations can be made for cable between 4 and 40 mm and duct dimensions between 10 and 63 mm. The unique Joystick controller and the agile motors ensure an optimal control of the installation. With an anodized aluminum construction, the V3 is lightweight but still very strong.

FEATURES

- Pneumatic operation, dual motors
- Electronic counter for speed and distance
- Gentle operation with lengthy contact surface on the cable
- Display for speed, distance, and pressure in the duct
- Adjustable clamping force
- Option of sub-ducting kit for installing several microducts
- Joystick controller with forward and reverse functionality
- Duct air release valve allows quick release of air from the duct
- JetLogger-provisioned (JLP) version allows instant hook-up to the JetLogger Blown Fiber Documentation System (sold separately)

SPECIFICATIONS

MAX PRESSURE	16 Bar
MAX SPEED	65m/min or 215ft/min
PUSHING FORCE	Up to 1800N
CABLE DIAMETER	4 - 40mm / 0.16 - 1.57"
DUCT DIAMETER	10 - 63mm / 0.39 - 2.48"
NET WEIGHT	Approx 25kg / 55lbs
AIR CONNECTION	1" Claw connector
WxHxD	700 x 400 x 590mm / 27.56 x 15.75 x 12.23"

INCLUDES

- Transport case
- User manual
- 1 bottle microduct lube
- 1 bottle duct lube
- 1 bottle pneumatic oil
- Service kit
- 12mm / 0.47" cable guide
